

## EXTENSION PIN CHECK REQUIRED!

Over the recent weeks a number of overheight loads have arrived at Kinleith log yard, due to extension pins dropping in transit. Some of the resulting loads have been horribly overheight, with one load being spotted on the highway by the police, who then escorted the truck to the Kinleith log yard to ensure other road users were not put in danger along the way!

**Please check your extension pins**, and ensure they are in good working order. This needs to be completed as a regular check.

**Drivers:** If your pins have dropped before and you haven't yet had them checked and fixed, **do not load past the top of the staunchion**. **DO NOT** rely on the extension pin to remain in place if it has failed before.

**Check it + Fix it = Good To Go.**
